# Beautiful, Affordable Storage Solutions for Every Room

Published On

November 24, 2020

Why You Can Trust Us ∨

Homeowners often tell me they don't have enough storage — and they're not sure about spending an arm and a leg for more organization. Fortunately, there's a solution for stylish, affordable storage.

---

*Plastic storage containers often are placed where they don't belong. So, they quickly get beaten up and worn out. You could continually replace them or just get permanent, built-in storage.*

## The Problem with Temporary Options

There's no shortage of storage options out there. From baskets to plastic and rubber containers, you can find lots of products from big-box stores, dollar stores and high-end retailers.

But these are temporary fixes for long-term problems. Homes never come with enough storage space, and nothing beats built-in organization.

Why purchase an endless supply of containers that will just fray, warp or bend out of shape — that you have to replace — when you could plan smart, permanent storage solutions?

If you think it's a challenge to add affordable storage to your home on a budget, **Cabinets To Go** can help.

---

*Bathrooms, craft rooms and garages all have one thing in common: they need storage! Cabinets To Go has unique, affordable solutions for each room, like these Aspen White raised panel cabinets.*

## Stylish Affordable Storage That's Built to Last

Custom stock cabinets from Cabinets To Go are the perfect storage solution. If you didn't build your home from the ground up, you can have stylish, built-in storage that fits your household's unique lifestyle and needs.

Cabinets To Go has more than 20 cabinet collections with adjustable shelves and a variety of price points, so it's easy to create affordable

storage systems that fit your home and the way you live.

And that goes for any room — bathrooms, laundry rooms, home offices, craft rooms and even garages. Because everything should have its proper place, and every room should have enough storage to hide and hold those things.

*Combining closed cabinets with open shelving is a stylish, functional and popular option. This vanity, with storage from Cabinets To Go's Spring Hill Hickory collection, uses every inch to its advantage.*

## The Convenience of Cabinets To Go

While permanent storage requires more upfront cost than temporary options, you won't regret this investment. That's because Cabinets To Go's products are stylish and durable.

These cabinets are built to last, using smart five-piece drawer and door fronts, soft-close doors and drawers, and half-inch hardwood plywood sides covered in a wood veneer for rigidity and moisture resistance. And they include a UV and scratch-resistant coating.

So, you can put them to work wherever you need them for whatever purpose you need. Cabinets To Go features a variety of cabinet colors and decorative drawer and cabinet pulls to match any style and décor for your needs.

As for convenience, these ready-to-assemble cabinets ship quickly, with most arriving at your local store in just 10 days. No nearby store? No problem! You can have the cabinets delivered right to your home.

If you're ready to add smart, stylish and affordable storage to your home, visit your local Cabinets To Go showroom, request a catalog, or check out the custom stock cabinets online at **[CabinetsToGo.com](https://cabinets-togo.com)**.
